About Tivoli Audio

Tivoli Audio was started by Tom DeVesto with the vision of bringing simple to use, elegantly designed, high quality audio products to consumers. As CEO and head of research and development at his former company, Cambridge SoundWorks, Tom was responsible for the development of many of the best selling home entertainment and multi-media products on the market. He also held senior management positions in product development at both Advent and Kloss Video.

*Cambridge SoundWorks is a registered trademark of Creative Labs, Singapore.

Connecting the NetWorks Speaker to your NetWorks Radio:

1. Connect the NetWorks Speaker's male RCA cable to the female RCA output (marked "R-SPR") located on the bottom of the NetWorks radio. Gently bend the cable so the NetWorks radio will sit flush on the surface it will sit on.
2. Adjust the balance control on the rear of the NetWorks radio to the center detent position for equal balance between the two speakers.
3. Press the Mono/Stereo button to the in position on the rear of the NetWorks radio.

You are now ready to enjoy your NetWorks in hi-fi stereo sound!

Placement:

Place the NetWorks Speaker on a flat, stable surface. The driver is shielded, permitting use within close proximity of a computer monitor or television set.

Placing your NetWorks Speaker inside a bookshelf, in a corner or against a wall will inflate the bass.

The 4.57 meter (15') connecting cable allows you to put distance between the NetWorks Speaker and the main unit for optimum stereo imaging and a realistic soundstage. We recommend placing the NetWorks Speaker at least 1.5 meters (5') apart from the main unit.

Be sure to route the connecting cable where it won't be stepped on or tripped over.

Do not use the NetWorks Speaker with non-Tivoli Audio models or you will void the warranty and risk damaging the speaker.

Cleaning:

Never use harsh cleansers, solvents, or abrasive pads on the wood cabinet. Liquid polish usually yields better results than spray-on waxes.

Painting or staining the wood cabinet is not recommended and will void your warranty.

NOTE: Tivoli Audio cabinets feature real wood veneers. Since natural wood varies greatly, it is not possible to achieve an exact wood color/grain match between models. Depending on the kind of wood, you may also notice the cabinet darken over time with exposure to sunlight.
